

Object: Public notice for the collection of expressions of interest from university students for the fruition of accommodation and university lodging services at the "Geovillage" receptive-sports complex in Olbia, a.y. 2023-2024.

With this Notice, the **CIPNES Gallura**, following up on the protocol agreement signed with ERSU Sassari and UNISS, intends to acquire expressions of interest from **university students** in order to take advantage of the university housing and hospitality services offered by CIPNES Gallura within the "**Geovillage**" accommodation facility, located in the productive consortium area of the municipality of Olbia.

It should be pointed out that CIPNES has already shared with the Ministry of University and Research (MUR) the proper initiative for the usability of the aforementioned university residential facility (pursuant to Law n. 338 of November 14, 2000). In accordance with an inter-institutional agreement concluded with the University of Sassari (UNISS), the "Uni-Olbia University Consortium" Association, the municipality of Olbia, and the Regional Authority for the Right to University Study (ERSU Sassari), CIPNES will contribute to **qualifying and promoting** the general educational offerings of the University of Sassari (UNISS) and in particular of the **decentralized Olbia Pole**, also through the providing of an integrated offer of **services for the hospitality, reception and residency of university students** enrolled in active courses of study, according to the "**University Campus**" model designed to encourage the **intercultural education** of students. In this perspective, CIPNES Gallura will make available for university students, for the **Academic Year 2023/24**, **53 accommodation/bed** places distributed between rooms for **single-individual use and rooms for shared use** (double rooms); the rooms adequately served and furnished with materials/elements of good quality, equipped with indoor toilet for exclusive use and air conditioning system (hot-cold), are offered at the accommodation-sports facility "Geovillage" equipped for university hospitality and residency. Supporting the aforementioned accommodation spaces are **common areas** intended for recreational activities and/or community sharing with annexed **integrated range of complementary services** essential to ensure university students the widest, most optimal and comfortable enjoyment of the Geovillage university residential hub: concierge/supervision services ensured by the reception desk, cafeteria/restaurant area where housing beneficiaries can have meals for breakfast, lunch and dinner, laundry area with self-service, "student hub" area conceived as a collective study room served by wi-fi system for internet connection. The university residential facility can also be easily reached by the interested users through the municipal public transportation service provided by ASPO, which has a special parking terminal located in the area designated for the pertinent parking lots of the "Geovillage" accommodation building.

In particular, all students with **"off-campus"** status, **national and international** (including students on international mobility "Erasmus"), regularly enrolled in and attending any course of study active and/or activated by the University of Sassari (UNISS) in the Academic Year **2022/2023 (enrolled in the 1st year and/or subsequent years)**, students who intend to enrol (freshmen) in the 1st year of any degree course active and/or to be activated for **the accademic year 2023/2024**, those enrolled in Courses/Schools of Specialization in Legal Professions and Courses/Schools of Specialization of Medical-Health Area, and doctoral students. It should be noted that CIPNES will prioritize the allocation of beds to capable and deserving students even if without resources who are regularly enrolled at the Olbia decentralized University Pole as they are deemed eligible for the scholarship (on the basis of a special public selective procedure of the ERSU of Sassari scheduled for the a.y. 2023/2024)

The university students who are interested should fill out and submit online the appropriate **digital expression of interest format no later than July 21** by connecting to the following active **link** on the institutional website of CIPNES Gallura. The sole purpose of this Notice is to **explore and acquire** the qualified interest of university students to take advantage of the hospitality and university residency services at the public accommodation-sports facility "Geovillage" in Olbia, and thus enable the CIPNES to efficiently plan with transparency and impartiality the operational-functional start-up of the same for the month of October 2023 and promote its widest accessibility and use.

Any participatory response to this notice **does not entail** commitments or constraints of any kind, either for the university students concerned or for CIPNES Gallura.

The interested parties may request any further information related to this public notice at the email address **investingallura@cipnes.it**

In accordance with the Data Protection and Privacy regulations, it is hereby informed that the data provided by the interested parties will be processed, by CIPNES (data controller), exclusively for purposes related to this procedure.
